## Army Of Israel: Mormon Battalion Narratives

Giving priority to previously unpublished documents, editors David Bigler and Will Bagley have compiled, introduced, and annotated dozens of firsthand accounts and other primary sources regarding the Mormon Battalion's march and subsequent adventures. These include such perspectives as the journal of teenager William Pace, letters from a few of the women associated with the battalion (some thirty wives accompanied their husbands), and military and government correspondence. These and the many other collected documents provide an expansive portrait and detailed record of a large part of the American West--including portions of what became Iowa, Kansas, Colorado, New Mexico, Arizona, California, Nevada, and Utah--and its inhabitants at a crucial juncture in the region's history, the late 1840s.
