Healthy Land, Healthy Pasture, Healthy Horses (black and white edition): The Equicentral System Series Book 2 (Volume 2) Jane Myers, Stuart Myers

(THIS IS THE BLACK/WHITE VERSION - the ISBN for the full color/colour version is 978-0994156181).

If you watch horses grazing pasture, you would think that they were made for each other. You would in fact be correct; millions of years of evolution have created a symbiotic relationship between equines (and other grazing animals) and grasslands. Our aim as horse owners and as custodians of the land should be to replicate that relationship on our land as closely as possible.

In an ideal world, most horse owners would like to have healthy nutritious pastures on which to graze their horses all year round. Unfortunately, the reality for many horse owners is far from ideal.

However, armed with a little knowledge it is usually possible to make a few simple changes in your management system to create an environment which produces healthy, horse friendly pasture, which in turn leads to healthy 'happy' horses.

Correct management of manure, water and vegetation on a horse property is also essential to the well-being of your family, your animals, your property and the wider environment.

This book will help to convince you that good land management is worthwhile on many levels and yields many rewards. You will learn how to manage your land in a way that will save you time and money, keep your horses healthy and content and be good for the environment all at the same time. It is one of those rare win-win situations.
