Teaching adolescents can be quite challenging. Dr. Judith Willis, a neurologist and teacher, explains the inner workings of the adolescent brain. She uses the findings of brain research in her classroom to explain how parents and teachers can trigger untapped inspiration in students.

Middle school education has often been a black hole for gifted students, seldom providing adequate challenge. By understanding how the brain works, however, we can make learning for all youngsters exciting and stimulating. The information and advice in this book will help parents and teachers design positive and rewarding learning experiences that will then be stored in long-term memory rather than deleted or filtered out.
