Synergy Chemical Corporation, the second largest chemical company in the world, has just been awarded a multibillion dollar contract to synthesize a new chemical intermediate for a major consumer products company. When Dr. Meg Morgan is assigned the task for conducting safety evaluations for this new chemical, it becomes obvious to everyone that she is being groomed for the top position. Young, brilliant and ambitious, her work is her passion and defines her existence. And only those closest to her know, she uses it as an armor for keeping anyone from coming too close - especially Nick Gallagher. But when two workers are taken critically ill, Meg embarks on a journey that leads her through a maze of corporate corruption, deceit and cover-ups. Toxic Intent explores the ethical, moral and professional dilemmas of a young scientist who is determined to put a face to the victims of corporate profit before they too simply become a statistic. But before this, Meg must battle her own personal demons and reach deep within herself to rediscover the meaning of love, loyalty and justice.

Phillip Darrah:

As a scholar exactly feel bored to be able to reading. If their teacher questioned them to go to the library or even make summary for some guide, they are complained. Just very little students that has reading's heart or real their interest. They just do what the educator want, like asked to go to the library. They go to there but nothing reading really. Any students feel that studying is not important, boring along with can't see colorful images on there. Yeah, it is for being complicated. Book is very important for you. As we know that on this era, many ways to get whatever you want. Likewise word says, ways to reach Chinese's country. So , this Toxic Intent can make you feel more interested to read.
