Brought back from the dead, combat pilot Miranda Donovan finds the price for her resurrection is a steep one. The biomedical laboratory has creatively interpreted the law so the experiments on her can continue. Her determination to escape only intensifies after a horrific, blood-soaked night reveals how much their work has made her a target. The uneasy truce with the biotech lab hinges on her ability to track down the murderous security agent, but her only path to freedom may lie in trusting a man whose secrets are even darker than her own.
