Security, Privacy, and Trust in Modern Data Management (Data-Centric Systems and Applications)

Security, Privacy, and Trust in Modern Data Management (Data-Centric Systems and Applications)

The vision of ubiquitous computing and ambient intelligence describes a world of technology which is present anywhere, anytime in the form of smart, sensible devices that communicate with each other and provide personalized services. However, open interconnected systems are much more vulnerable to attacks and unauthorized data access.

In the context of this threat, this book provides a comprehensive guide to security and privacy and trust in data management.
