This book contains a collection of portraits of the people who mean the most to me. Due to the abstract nature of this book the images within may not be proportional in relation to each other but represent facial lines, shadows, and highlighted areas to create a greater picture that is a portrait. Here presents the challenge in choosing how to color them. I recommend experimenting with blending colors to create shading that is consistent with the portrait, while also allowing yourself to use a broad range of colors for the smaller images within. Single-sided pages allow for bleed-free coloring however colored pencils may work best.
