THE WHOLE TRUTH: A Fresh Look at Reality Sydney B. Self

This book is unique; nothing similar has been published before. Its thesis is that reality consists of three independent entities; physical reality, subjective reality, and social reality. While based on scientific fact, its nature is speculative and raises questions such as, "How long is 'now'?" and "What would be the nature of the Universe if it contained no life?" The author suggests that, "Without life, the past and future do not exist." and "Life is counter-entropic."
