Zemlya is an isolated city, surrounded by an impassable tundra. The city is protected from the elements by a giant wall, and defended by cybernetically enhanced soldiers that make sure that no-one leaves the city. Many have tried but none survive. Kate is one of these agents, and is recalled from patrolling the tundra to investigate a rebellion within the city originating in an abandoned industrial area. The rebels are treated as capital offenders and summarily executed. When flushing out a small cell she finds that they have recruited a young girl, who Kate refuses to kill. Kate is then given orders to try to infiltrate the rebels, but her communication is cut off from headquarters. Following her judgment alone, she begins to sympathise with the young girl she spared and her confederates. Knowing she needs to hide her identity from her new friends whilst trying to stay loyal to the city's central government, Kate toes the moral line between good and bad. With comic-book action scenes and a fast-paced plot wrung with twists, The Zemlya Conspiracy is the debut novel from visual novel author Cameron O'Neill.
