Quantitative Methods in Management: Case Studies of Failures and Successes C. B. Tilanus, O. B. De Gans, Jan Karel Lenstra

Over 40 case studies examine actual applications and results of quantitative methods of management. Contributors are from a wide range of sectors, including agriculture, industry, transportation, banking, university, and others. Each contributor reports on both a success in the application of operations research or management science, and a failure. Written for non-mathematicians.
