Tin Man

Scott S. Elliott

Tin Man Scott S. Elliott

In 2077, bio-engineers Sara and Vick decided to build an improved human being – a cyborg with a mechanical body and a cloned human brain. They knew that what they were doing was against the law, but they had to try. Their creation far exceeded their expectations, bringing forth a real person with amazing strength and abilities and a gentle personality – but would he be accepted in a world of conflicting politics and religion? This is the story, set in 2080s America, of a highly unusual young man's search for adventure, love and acceptance.
