Integrated Broadband Networks: TCP/IP, ATM, SDH/SONET, and WDM/Optics Byeong Gi Gi Lee

This cutting-edge resource examines the four core technologies behind today's broadband networks. You get in-depth coverage of Tcp/Ip, Atm, Sdh/Sonet and Wdm Networking technologies, which are being utilized to meet the demands of today's diverse service features. The book presents a framework of networking principles that forms a basis of the comparison of these technologies with respect to their relative strengths, weakness and fields of use. Moreover, you learn how the technologies differ, what they have in common, and how they interact. Explanations of these technologies are provided within the concepts of architecture and layering models, multiplexing and switching methods, routing algorithms and protocols, traffic management methods, and Qos support. You also get one of the first overviews of the Ip over Wdm field. Supported with over 200 illustrations and 40 equations.

From reader reviews:

Agustin Thornsberry:

Have you spare time for a day? What do you do when you have a lot more or little spare time? That's why, you can choose the suitable activity to get spend your time. Any person spent their spare time to take a wander, shopping, or went to often the Mall. How about open or read a book allowed Integrated Broadband Networks: TCP/IP, ATM, SDH/SONET, and WDM/Optics? Maybe it is for being best activity for you. You understand beside you can spend your time along with your favorite's book, you can better than before. Do you agree with it has the opinion or you have different opinion?

Daniel Rhoads:

You can spend your free time to read this book this guide. This Integrated Broadband Networks: TCP/IP, ATM, SDH/SONET, and WDM/Optics is simple to deliver you can read it in the recreation area, in the beach, train and soon. If you did not have got much space to bring the particular printed book, you can buy often the e-book. It is make you better to read it. You can save the actual book in your smart phone. And so there are a lot of benefits that you will get when one buys this book.

Susan Demar:

Is it an individual who having spare time in that case spend it whole day simply by watching television programs or just resting on the bed? Do you need something new? This Integrated Broadband Networks: TCP/IP, ATM, SDH/SONET, and WDM/Optics can be the respond to, oh how comes? It's a book you know. You are therefore out of date, spending your free time by reading in this fresh era is common not a geek activity. So what these textbooks have than the others?

Marie Slaughter:

Book is one of source of understanding. We can add our knowledge from it. Not only for students but also native or citizen have to have book to know the upgrade information of year in order to year. As we know those ebooks have many advantages. Beside we all add our knowledge, can also bring us to around the world. By the book Integrated Broadband Networks: TCP/IP, ATM, SDH/SONET, and WDM/Optics we can consider more advantage. Don't someone to be creative people? To become creative person must prefer to read a book. Just simply choose the best book that suited with your aim. Don't end up being doubt to change your life with that book Integrated Broadband Networks: TCP/IP, ATM, SDH/SONET, and WDM/Optics. You can more attractive than now.
