'The precise way in which the authors take the reader through the processes of doing research is helpful to anyone embarking on research with children, so EPs in training, who have chosen children as their subjects for research, would find this book helpful. Practising EPs are recommended to borrow a copy from their local university library when considering a child-centered research project' - *Educational Psychology*

This book provides a comprehensive and practical introduction to undertaking a research project with children.

Divided into three sections, the first introduces the main theories and approaches in doing research with children. In the second part, the different frameworks and techn
