Pediatric Forensic Neuropsychology

Elisabeth M.S. Sherman, Brian L. Brooks

Pediatric Forensic Neuropsychology Elisabeth M.S. Sherman, Brian L. Brooks

Pediatric Forensic Neuropsychology is the authoritative, definitive reference on the practice and process of civil forensic neuropsychological assessment of children and adolescents. With chapters authored by top experts in the field of pediatric neuropsychology and forensic neuropsychology, this book provides critical, knowledgeable, and expert information for clinicians, attorneys, physicians and other professionals involved in forensic pediatric neuropsychological assessment.

Pediatric Forensic Neuropsychology covers core theoretical and practical topics including the role of pediatric neuropsychology in the courtroom, ethics, test selection, advanced interpretation of test results, tools for assessing sub-optimal performance, differential diagnosis of malingering and related conditions, and factors such as culture and pre-morbid conditions. In addition, in-depth review and clinical case descriptions of mild traumatic brain injury, moderate to severe traumatic brain injury, medical malpractice, the independent educational evaluation, and the diagnosis of psychological and psychiatric conditions such as secondary ADHD in the context of the forensic neuropsychological evaluation are covered in detail. The book also includes a toolbox of forms useful for conducting clinical forensic evaluations which will be of particular interest to practicing clinicians.

From reader reviews:

Olivia Clinard:

In this 21st centuries, people become competitive in most way. By being competitive today, people have do something to make these survives, being in the middle of the crowded place and notice simply by surrounding. One thing that often many people have underestimated the idea for a while is reading. Yes, by reading a reserve your ability to survive improve then having chance to stand up than other is high. In your case who want to start reading some sort of book, we give you this Pediatric Forensic Neuropsychology book as starter and daily reading book. Why, because this book is usually more than just a book.

David Rutherford:

Reading a book tends to be new life style on this era globalization. With studying you can get a lot of information that could give you benefit in your life. Together with book everyone in this world could share their idea. Ebooks can also inspire a lot of people. Plenty of author can inspire their own reader with their story or their experience. Not only the storyplot that share in the publications. But also they write about the data about something that you need example of this. How to get the good score toefl, or how to teach children, there are many kinds of book that exist now. The authors in this world always try to improve their expertise in writing, they also doing some exploration before they write for their book. One of them is this Pediatric Forensic Neuropsychology.

Cassandra Rosas:

In this era which is the greater individual or who has ability to do something more are more special than other. Do you want to become one among it? It is just simple way to have that. What you are related is just spending your time not much but quite enough to have a look at some books. One of many books in the top checklist in your reading list is Pediatric Forensic Neuropsychology. This book which can be qualified as The Hungry Inclines can get you closer in getting precious person. By looking right up and review this publication you can get many advantages.

Cherie Fidler:

That reserve can make you to feel relax. This kind of book Pediatric Forensic Neuropsychology was colorful and of course has pictures on there. As we know that book Pediatric Forensic Neuropsychology has many kinds or genre. Start from kids until teens. For example Naruto or Private eye Conan you can read and believe you are the character on there. Therefore not at all of book are usually make you bored, any it offers you feel happy, fun and rest. Try to choose the best book for you and try to like reading in which.
