## **Standards for Cellular Therapy Services, 6th edition** AABB (American Association of Blood Banks)

The sixth edition of Standards for Cellular Therapy Services details the latest standards of practice for accredited cellular therapy facilities. Significant changes:

New and enhanced standards that address clinical activities, including but not limited to standards about patient consent, patient care, preparation for administration, and clinical outcomes reporting.

Restructured Chapter 5 Process Control to divide the chapter into four distinct areas of focus: general process control, procurement activities, processing activities, and clinical activities.

Expanded non-hematopoietic content addressing elements of novel cellular therapies.

Several revisions to assist in the international application of the standards.

(2013, AABB, 130 pages)

Effective date: July 1, 2013
