## **The Solution of Equations (Mathematical Monographs) (Volume 10)** Mansfield Merriman

From the EDITORS' PREFACE.

The volume called *Higher Mathematics*, the first edition of which contained eleven chapters by eleven authors, each chapter being independent of the others, but all supposing the reader to have at least a mathematical training equivalent to that given in classical and engineering colleges. The publication of that volume is now discontinued and the chapters are issued in separate form. In these reissues, it will generally be found that the monographs are enlarged by additional articles or appendices which either amplify the former presentation or record recent advances. This plan of publication has been arranged in order to meet the demand of teachers and the convenience of classes, but it is also thought that it may prove advantageous to readers in special lines of mathematical literature.

It is the intention of the publishers and editors to add other monographs to the series from time to time, if the call for the same seems to warrant it. Among the topics which are under consideration are those of elliptic functions, the theory of numbers, the group theory, the calculus of variations, and non-Euclidean geometry; possibly also monographs on branches of astronomy, mechanics, and mathematical physics may be included. It is the hope of the editors that this form of publication may tend to promote mathematical study and research over a wider field than that which the former volume has occupied.

### **From reader reviews:**

#### **Cameron Rodriquez:**

Why don't make it to be your habit? Right now, try to ready your time to do the important act, like looking for your favorite guide and reading a guide. Beside you can solve your short lived problem; you can add your knowledge by the reserve entitled The Solution of Equations (Mathematical Monographs) (Volume 10). Try to stumble through book The Solution of Equations (Mathematical Monographs) (Volume 10) as your good friend. It means that it can for being your friend when you really feel alone and beside those of course make you smarter than ever. Yeah, it is very fortunated for you. The book makes you a lot more confidence because you can know almost everything by the book. So , let me make new experience along with knowledge with this book.

#### **Scott Hagen:**

The reason why? Because this The Solution of Equations (Mathematical Monographs) (Volume 10) is an unordinary book that the inside of the e-book waiting for you to snap that but latter it will jolt you with the secret that inside. Reading this book close to it was fantastic author who all write the book in such incredible way makes the content inside of easier to understand, entertaining way but still convey the meaning completely. If I had been you I will go to the guide store hurriedly.

#### **Eric Green:**

Your reading 6th sense will not betray you actually, why because this The Solution of Equations (Mathematical Monographs) (Volume 10) e-book written by well-known writer whose to say well how to make book that can be understand by anyone who have read the book. Written throughout good manner for you, still dripping wet every ideas and publishing skill only for eliminate your own personal hunger then you still question The Solution of Equations (Mathematical Monographs) (Volume 10) as good book not only by the cover but also by content. This is one book that can break don't assess book by its handle, so do you still needing a different sixth sense to pick this particular!?! Oh come on your reading through sixth sense already said so why you have to listening to another sixth sense.

#### **Rachel Cady:**

This The Solution of Equations (Mathematical Monographs) (Volume 10) is great guide for you because the content that is full of information for you who always deal with world and possess to make decision every minute. This particular book reveal it facts accurately using great plan word or we can point out no rambling sentences inside. So if you are read this hurriedly you can have whole facts in it. Doesn't mean it only offers you straight forward sentences but tricky core information with splendid delivering sentences. Having The

Solution of Equations (Mathematical Monographs) (Volume 10) in your hand like obtaining the world in your arm, details in it is not ridiculous one. We can say that no reserve that offer you world with ten or fifteen minute right but this book already do that. So , this is certainly good reading book. Hey there Mr. and Mrs. busy do you still doubt that will?
