Advanced Lectures on Machine Learning: Machine Learning Summer School 2002, Canberra, Australia, February 11-22, 2002, Revised Lectures (Lecture Notes in Computer Science)

Machine Learning has become a key enabling technology for many engineering applications and theoretical problems alike. To further discussions and to disseminate new results, a Summer School was held on February 11–22, 2002 at the Australian National University. The current book contains a collection of the main talks held during those two weeks in February, presented as tutorial chapters on topics such as Boosting, Data Mining, Kernel Methods, Logic, Reinforcement Learning, and Statistical Learning Theory. The papers provide an in-depth overview of these exciting new areas, contain a large set of references, and thereby provide the interested reader with further information to start or to pursue his own research in these directions. Complementary to the book, a recorded video of the presentations during the Summer School can be obtained at <http://mlg.anu.edu.au/summer2002> It is our hope that graduate students, lecturers, and researchers alike will find this book useful in learning and teaching Machine Learning, thereby continuing the mission of the Summer School. Canberra, November 2002 Shahar Mendelson Alexander Smola Research School of Information Sciences and Engineering, The Australian National University Thanks and Acknowledgments We gratefully thank all the individuals and organizations responsible for the success of the workshop.

From reader reviews:

James Connell:

In this 21st hundred years, people become competitive in every single way. By being competitive right now, people have do something to make all of them survives, being in the middle of typically the crowded place and notice simply by surrounding. One thing that often many people have underestimated the item for a while is reading. Yep, by reading a e-book your ability to survive boost then having chance to remain than other is high. For you who want to start reading some sort of book, we give you this particular Advanced Lectures on Machine Learning: Machine Learning Summer School 2002, Canberra, Australia, February 11-22, 2002, Revised Lectures (Lecture Notes in Computer Science) book as nice and daily reading reserve. Why, because this book is more than just a book.

Ellen Omalley:

Reading a publication tends to be new life style within this era globalization. With reading you can get a lot of information that will give you benefit in your life. Along with book everyone in this world can certainly share their idea. Publications can also inspire a lot of people. A great deal of author can inspire all their reader with their story or maybe their experience. Not only situation that share in the books. But also they write about the data about something that you need example. How to get the good score toefl, or how to teach your young ones, there are many kinds of book that exist now. The authors on this planet always try to improve their ability in writing, they also doing some research before they write to their book. One of them is this Advanced Lectures on Machine Learning: Machine Learning Summer School 2002, Canberra, Australia, February 11-22, 2002, Revised Lectures (Lecture Notes in Computer Science).

Marietta Allred:

This Advanced Lectures on Machine Learning: Machine Learning Summer School 2002, Canberra, Australia, February 11-22, 2002, Revised Lectures (Lecture Notes in Computer Science) is brand new way for you who has curiosity to look for some information as it relief your hunger of knowledge. Getting deeper you in it getting knowledge more you know otherwise you who still having bit of digest in reading this Advanced Lectures on Machine Learning: Machine Learning Summer School 2002, Canberra, Australia, February 11-22, 2002, Revised Lectures (Lecture Notes in Computer Science) can be the light food for yourself because the information inside this book is easy to get through anyone. These books build itself in the form and that is reachable by anyone, yes I mean in the e-book application form. People who think that in reserve form make them feel tired even dizzy this book is the answer. So there is no in reading a publication especially this one. You can find actually looking for. It should be here for a person. So , don't miss that! Just read this e-book style for your better life as well as knowledge.

Sylvia Grable:

With this era which is the greater man or who has ability in doing something more are more special than other. Do you want to become among it? It is just simple strategy to have that. What you have to do is just spending your time not very much but quite enough to experience a look at some books. One of the books in the top record in your reading list is definitely Advanced Lectures on Machine Learning: Machine Learning Summer School 2002, Canberra, Australia, February 11-22, 2002, Revised Lectures (Lecture Notes in Computer Science). This book which is qualified as The Hungry Hillside can get you closer in getting precious person. By looking way up and review this publication you can get many advantages.
