National Geographic's map of Afghanistan and Pakistan is the most accurate and detailed reference map available for the region, covering these two countries as well as Tajikistan and parts of Turkmenistan, Uzbekistan, Kyrgyzstan, China, India and Iran. This *Classic* style wall map uses a bright and vibrant color palette and precise shaded relief, making it as attractive as it is educational. Accurate political boundaries are displayed on the map, including in the disputed area of Kashmir. Pinpointed are thousands of cities and towns, mountain ranges, national parks, glaciers, swamps, areas of sand, oil fields, highways and other roads, international and domestic airports, canals, railroads and waterways, including intermittent and dry salt lakes.

The map is encapsulated in heavy-duty 1.6 mil laminate which makes the paper much more durable and resistant to the swelling and shrinking caused by changes in humidity. Laminated maps can be framed without the need for glass, so the frames can be much lighter and less expensive.
