Try new techniques, get in some practice time, or work on a finished piece with this collection of Art Models pose photos for a fraction of the price of hiring a model or buying individual poses. These collections of poses from individual Art Models Photoshoots are a cost effective way to collect all the poses from favorite models and modeling sessions. Each pose presents the model in the series' trademark in-the-round 360-degree rotation, showing the pose from 24 points of view. Multiple angles enable artists to choose their view—very important in creating art that conveys an artist's individual style. Choose an image and zoom in on any part of the figure to achieve a higher level of detail. Digital artists can give their creations ultra-realistic features and traditional artists can create detailed or monumental-size paintings and drawings. Scale, rotate, flip, enlarge, brighten, darken and even combine images using standard photo editing software like Photoshop or GIMP. Because the photos are presented in JPEG format, they can be sent to any device or printer. *Vaunt Session 2A* presents the first half of the second Photoshoot with Art Models' Vaunt, a collection of over 480 photos in 20 poses photographed in high contrast lighting. A preview of all the poses can be seen in the Sessions page of the PoseSpace.com website.
