Nazca, once an isolated settlement in the midst of the Peruvian desert, is today the meeting place for archaeologists from around the world. From here you can fly over the celebrated Nazca pampa & appreciate the massive scale of the extraordinary markings on the surrounding landscape. Some of these lines are nearly 15 miles long! Von Daniken examines the various theories which attempt to explain the Nazca phenomena in terms of religious ritual, ancient roads & astrological symbols. With the help of numerous photos taken by the author, he describes the many mysteries of Nazca & puts forward a startling revolutionary solution to one of archaeology's greatest enigmas. Photos.
