## Human Inquiry: A Sourcebook of New Paradigm Research

Sets forth a new paradigm for the philosophy and practice of research in fields of human activity: a collaborative, experimental approach in which inquiry is firmly rooted in subjects' experience of their lives. Covers the philosophy, methodology, practice and prospects of the new paradigm, showing how to do research *with* people rather than *on* people. Synthesizes material from researchers pursuing similar paths in Europe, North America, Africa and India as well as relevant reprints and appreciations of classical material.
