Nowhere on earth is there a more beautiful and more abundant life than that which exists on the coral reefs just below the surface of the ocean. **Reef Life** is filled with information and images that brings order to the multitude of living things that exist here and allows the reader to appreciate the diversity and the richness of the world under the sea.

This handy guidebook will prove invaluable to the diver, tourist, student and naturalist. Each species of plant and animal is covered in detail: name, species, habitat, food, range, and a thorough description is provided for each entry. More than 400 species are covered and illustrated with 500 color photographs to provide a comprehensive look at this most magnificent world.

This is an ideal book for anyone interested in marine life. It provides up-to-date information, clear color photographs in a handy format for use in the field or at a desk. Readers who need essential facts quickly will be pleased with the orderly presentation of information, the completeness of the entries and the accuracy of the information. The color photographs help in identifying species as well as providing a visual reference for the information presented.

Reef Life is an ideal guide and reference for all levels of interest from school project to professional divers.
